However, it is contradiction to have combining for one estimated effect " of one transmission impairment factor as recited in the preceding limitation in claims; and

(3) Claims 1 and 6 recite the limitation "the value of a counter" in line 11 of claim 1 and line 13 of claim 6. There is insufficient antecedent basis for this limitation in the claim because "the value" is not introduced before. It is also unclear what the value is.

(4) Claims 11 recites the limitation "the set of said subjective quality estimates" in line 14. There is insufficient antecedent basis for this limitation in the claim.
